## The City of Frisco and the 2010 Census

United States  
Census  
2010

**COUNTS**

IT'S IN OUR HANDS

The upcoming US census will be one of the most important fiscal events ever for Frisco. Why? The last time the census occurred was in 2000. At the time, the city had a little more than 33,000 residents. Now we are over 100,000! Funding from the federal government is determined by the previous census. All things being equal, Frisco's grants and funding level should increase by a factor of 3 or 4 after completion of the 2010 census.

What can you do to help? The most important thing you can do is to make sure you fill out the questionnaire you receive in the mail and return it. You should receive a form sometime in March 2010. It will consist of 10 questions and should take less than 10 minutes to complete. For more information, you can visit the City of Frisco website for the 2010 census:

<http://www.friscotexas.gov/departments/planningDevelopment/comprehensive/census2010/Pages/default.aspx>

## Frisco Police Announce an Online Citizen Survey

The Frisco Police Department is pleased to announce the addition of a new online citizen satisfaction survey. The survey is a collaborative effort with the Bureau of Justice Statistics and was developed by Justice Survey Software to help local police departments conduct surveys of their individual agencies.

The police department would like to encourage all citizens and members of the Frisco business community to complete the survey. In order to complete the online questionnaire, please visit the [Frisco Community Survey](#). Once the page has opened, click "Open/Resume Questionnaire" and answer the questions

provided. The survey should take only a few minutes to complete.

Thanks for your help with Providing your feedback and helping the Frisco Police Department to better serve the community!

## Reminder To Citizens about Wild Animals

As the weather begins to warm, the number of calls to the police department and our city's animal control officers increases as encounters with wild animals such as coyotes become more frequent. Many areas of our city are still very rural and are natural habitats for such wild animals that we do not want to see roaming in our backyards; however, these animals are in their natural habitat and do not recognize property lines or residential neighborhoods. When they do wander into unsafe areas, it is time for the professionals to take over.

The Frisco Police Department would like to encourage all citizens to not

attempt to run off, shoot at, or trap *any* wild animal they encounter. Instead, call Animal Control at [972.292.5303](tel:972.292.5303) or the police department at [972.292.6010](tel:972.292.6010) if after hours and have a Frisco animal control officer or police officer respond to handle the situation.

Also, please remember that Frisco city ordinance prohibits discharging a firearm within the city limits.

Please do not shoot any weapons in an attempt to scare off wild animals that you may encounter.

We appreciate your help in this matter.

## Total Number of Criminal Mischiefs for Year 2009 by Day of Week
